

Intentional Learning SPACES

DID YOU KNOW?

Parents, peers, and space are like the three amigos when it comes to teaching children? It's true! But let's focus on the third one for a sec – spaces!

SPACES

Whether it's a cozy corner for reading, a crafty nook for creating, or a tech-savvy zone for exploring, spaces have this magical knack for sparking learning in their own special way.

ADAPTABILITY

Create spaces that can easily adjust to different learning needs and situations.

MOVEMENT

Create spaces that encourage plenty of activity and movement. After all, a little wiggle and jiggle can make learning even more fun!

COLOR

Adding a splash of color is a simple and budget-friendly way to bring life and excitement to any space.

REDISCOVER

Take a moment to imagine what you could do by repurposing some of the unused space.

LEARNLINK

Intentional Learning SPACES

TIDY UP

Simplify things by clearing some of those materials off your walls to keep things calm and cozy.

CREATIVITY BOOSTER

Thinking about adding some creativity boosters? How about incorporating writable surfaces on your walls or desks? You could even provide individual whiteboards for brainstorming and problem-solving sessions!"

LEARNING HUB

Link scholars to a "home learning hub" to add an exciting new layer to what you already do in your physical spaces.

At your discretion

MAXIMIZE SPACE

Think about the edges of your room where the walls meet the floor. How about creating a cool 'genius bar' along one of those walls? It's a fun spot where kids can stand or sit on high chairs and work together on awesome projects!

YOU'RE INVITED

Picture this: as soon as learners step inside, they're greeted with warmth and excitement, instantly drawn into an engaging learning experience. That's the magic of designing a space that speaks to them, setting the stage for a journey of discovery. Let's create an environment where every corner whispers the promise of learning, inviting learners to dive in and explore
